SUMMARY

Motivated Full Stack Developer with a Bachelor's degree in Software Engineering from Al-Hussein Bin Talal University. Experienced in building responsive web applications using modern technologies such as React.js, Node.js, and JavaScript. Strong background in UI/UX design, task management, and technical communication. Passionate about continuous learning and delivering high-quality code that improves user experience and business efficiency.

WORK EXPERIENCE

Department of Statistics (DOS)

Nov 2024 - Currently

Technical Support

- Provided technical assistance to researchers and maintained software tools.
- Resolved device malfunctions and ensured smooth workflow within the research department.
- Delivered daily reports on technical issues and resolutions.

KabsetZr

Jun 2024 - Sep 2024

Trainee

- Designed and developed responsive web interfaces using SP Builder Pro.
- Created modern graphic designs with Inkscape and Canva.
- Wrote technical website content and collaborated with clients for feedback.
- Guided team members and managed tasks using Microsoft Office and Trello.

Project

Foodify (Interactive Recipe App) — HTML, CSS, JavaScript, React

- Built a responsive recipe web app using React and modern front-end development principles.
- Utilized React Hooks (useState, useEffect) for efficient state management and API data handling.
- Implemented dynamic routing and modular components to improve scalability and maintainability.
- Designed a clean and user-friendly UI/UX with smooth transitions and responsive layouts.
- Integrated LocalStorage to store user preferences and enhance user experience.
- Applied version control using Git and GitHub throughout the development process.
- Followed best practices in code optimization, reusability, and component structure.
